Dear friend,

I have enjoyed speaking to many of you during the campaign and hope you have had the opportunity to read the literature I sent you.

Having lived in the Constituency for over 40 years, 15 of those spent as a councillor on the City council I am already an established name in the Constituency, with a strong track record of delivery, who knows the local issues.

As an experienced campaigner with a record of winning elections, I know what it takes to win.

As the Liberal Democrat Prospective Parliamentary Candidate for Colchester, I would:

- ✓ With the help of Party Members put together a plan to win back Colchester.
- ✓ Campaign and deliver on local and national issues that matter to Colchester.
- ✓ Build on our existing team of campaigners and volunteers.

If selected as your PPC I will use my knowledge of Colchester and experience of campaigning to win the Parliamentary seat and once again return a Liberal Democrat MP to the City.

Please give me your first preference vote and together we can make this happen. Thank you.

Martin
